A Word From Our President, John Kramer

The banking industry describes banks like First Bank of Manhattan as a “community” bank. Community banks are generally smaller financial institutions that operate their business with a focus on a limited geographic area. Their business models can differ significantly, but they have many characteristics in common.

In a world where many people believe bigger is better, I for one am very proud to be part of a community based bank. One definition of community that I believe fits First Bank of Manhattan to a tee is “a feeling of fellowship with others, as a result of sharing common attitudes, interests and goals.”

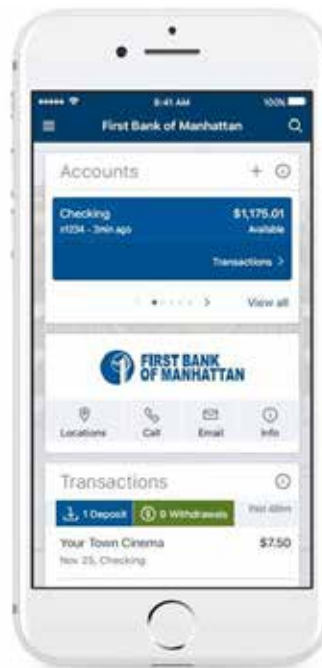

If you are already a bank client, I am confident that you recognize those attributes when you communicate with our associates. If you are not a client, I encourage you to give us a try. I assure you we share your interest and goals, and we welcome the opportunity to be part of your financial team.
