

Run your business instead of running to the bank!

With Remote Deposit Capture, you can electronically deposit checks into your business accounts from the convenience of your store or office.

Make fewer trips to the bank

Eliminate the time and expense of having to fill out a deposit slip, drive to the bank and stand in line for a teller.

Make deposits from your office at any time – even before or after normal banking hours.

Consolidate depository relationships

There's no need to have multiple deposit accounts at different banks. Simplify your accounts to a single bank relationship.

Make deposits from multiple business locations

Each store or office can deposit checks into a common business account.

It's safe and secure

The latest encryption technology and password protection ensure the security of transmissions.

Export capable

Upload deposit information to Quick Books or Quicken.

Check copies

No need to photocopy checks. Up to one year of deposit details and check images can be stored at your fingertips.

Reduce errors

Improve control and accuracy of your deposits with built-in error detection.

It's as easy as scan and transmit!

The process is so simple you can begin using Remote Deposit Capture almost immediately. Simply log on to your computer, quickly scan each check using the Remote Deposit scanner, click on "Deposit" and you're done. The money is deposited into your First Bank of Manhattan or First Bank of New Lenox account.

We will work with you on-site to install the scanner and user-friendly software on any internet-ready computer.

To learn more about Remote Deposit Capture, or to arrange an installation, contact or visit any of our convenient locations.
